Attention all shops & insurers:

I-CAR Canada's Platinum Recognition program is changing!

In the next few weeks I-CAR will be launching a completely revised set of courses, allowing shops and insurers to choose exactly the skills upgrading they need. The requirements for each Role are changing as well in line with the rapid changes in vehicle technology.

All courses previously taken will be credited with equivalents in the new curriculum - your employees will **not** lose any of the training they have already done.

Technicians who are currently Platinum-recognized will stay at the Platinum level and will have 2 years from the date of their next renewal to meet the new course requirements. During this period the technician must continue to complete 6 hours of training annually to maintain their recognition.

If you have any questions about this change, please contact I-CAR Canada!
